PROFESSIONAL SUMMARY

Backend-focused Software Engineer with 15+ years of software development experience spanning commercial software, game development, technical leadership, and education.

Currently specialized in Java backend development using Spring Boot, Spring Security, PostgreSQL, Docker, and RESTful API design. Experienced in building secure authentication systems, role-based authorization, database-driven applications, and cloud-deployed services.

Strong background in software architecture, problem solving, technical leadership, and mentoring. Passionate about designing maintainable backend systems and continuously improving engineering practices.

TECHNICAL SKILLS

Backend Development | Java, Spring Boot, Spring MVC, REST API Design

Security | Spring Security, JWT Authentication, Authentication & Authorization, Role-based Access Control(RBAC)

Database & Persistence | PostgreSQL, Spring Data JPA, Hibernate, Redis, Flyway

DevOps & Deployment | Git, CI/CD using GitHub, Maven, Docker, Render

Architecture & Patterns | Layered Architecture, MVC Pattern, DTO Pattern, Repository Pattern, Service-Oriented Design

Frontend (Basic) | Thymeleaf, Bootstrap, JavaScript

Programming Languages | Java, C#, C++, Python

PROJECTS

SpringMart

Java • Spring Boot • PostgreSQL • Docker • Spring Security

Production-ready e-commerce backend application.

Key Features

- JWT-based Authentication
- Role-based Authorisation
- RESTful API Design
- Global Exception Handling
- Validation
- Database Versioning with Flyway
- Flyway database versioning
- Redis Caching
- Docker Containerisation
- CI/CD using GitHub Actions
- Cloud Deployment on Render

Technologies

Java, Spring Boot, Spring Security, PostgreSQL, JPA, Hibernate, Redis, Docker, Swagger, Maven

Authentication Service

Java • Spring Boot • JWT

- Designed and implemented secure authentication workflows
- JWT access and refresh token architecture
- Secure refresh token storage and hashing
- REST API implementation
- Swagger/OpenAPI documentation
- Layered architecture

Link

GitHub:

<https://github.com/Mohammad2116/spring-jwt-auth-service>

Phonebook Web Application

Spring Boot • Thymeleaf • PostgreSQL

- Full-stack web application
- User authentication and authorisation

- CRUD operations for contact management
- Search and pagination support
- Validation and error handling
- Thymeleaf UI components

Game Development Projects

Super Ball: Underground Adventure

- Unity & C#
- Gameplay systems implementation
- Technical architecture contributions

Chicken Run

- Unity & C#
- Gameplay mechanics and technical implementation

PROFESSIONAL EXPERIENCE

Technical Lead & CEO

Neonica Game Studio

2021 – 2023

- Led software and game development projects
- Directed technical planning and architecture decisions
- Managed project execution and development teams
- Coordinated product delivery and development workflows

Unity Developer

PFAP

2017 – 2020

- Developed multiple commercial game projects
- Implemented gameplay systems and technical features
- Collaborated on architecture and project development

Projects:

- MooMooki's Question

- Pipo
- Metabolica
- Chicken Run
- Chaos in the Carpet

Computer Science Teacher

Ministry of Education, Iran

2010 – 2020

- Taught programming and computer science courses
- Mentored students in software development
- Recognized as Expert Information Technology Officer

Game Developer

E-Boys Startup Team

2005 – 2006

- Developed 3D game components
- Participated in early-stage software and game projects

Project:

- Fly Mission

TEACHING EXPERIENCE

Computer Science Instructor

Technical & Vocational Training Organization of Iran

2006 – 2010

- Delivered software development and programming courses
- Trained students in practical software engineering skills

EDUCATION

Bachelor of Software Engineering

Islamic Azad University, Malayer

2011

CERTIFICATIONS

Complete C# Unity Developer 2D – Udemy

C# Advanced – Udemy

C# Intermediate – Udemy

Computer Training Certification – Technical & Vocational Training Organization of Iran

LANGUAGES

Persian – Native

English – Professional Working Proficiency
